Office Solution

Autodesk Subscriptions

Autodesk® Subscription is the best way to stay current with the very latest design technology, while gaining the benefits of simplified software management, easy budgeting, e-Learning and personalised web support from Autodesk technical experts- all for a fixed annual fee. Subscription also gives you access to software enhancements that keep your design tools up-to-date and make the most of your investment as well as to a range of exclusive community resources and other members-only privileges.

What features are included with my Autodesk Subscription from Cadspec?

Product Upgrades

You will receive any upgrades that become available for your products under current subscription during the term of your contract. You will be notified by email when they are available for download from the Subscription Centre website. If you still prefer to have a copy of the software on DVD/CD you can submit a request via the Subscription Centre and one will be sent to you at no additional cost.

The Right To Use Previous Versions

Only subscription customers are entitled to legally continue using previous versions of purchased software licenses even after installing an upgrade of the same product. Now when it matters most you can minimise disruptions that often come when installing and implementing new software.

The Right To Install The Software At Home

Autodesk Subscription customers have an exclusive "Home Use" right. This means that as the licensee of the software you may install a second copy of the software at another location away from your usual office or place of work.

Web Support

Web support provides access to a secure website where customers can submit technical questions to Autodesk support staff through an interactive online interface. Responses are provided through the web and email. The Web site also includes incident reporting and tracking tools to monitor the status of all questions and answers provided.

Autodesk e-Learning

e-Learning features self-paced, interactive lessons for select Autodesk® and Media & Entertainment products. All registered members of the Subscription Centre have access to the e-Learning that is available under their contract terms.

Autodesk Knowledgebase

The Knowledgebase offers a unified search of all resources through a single search window. Segmented content categories now encompass solutions, forums, data, downloads, learning resources and product help files.

Subscription Centre

The Subscription Centre is a password protected online application where subscription members access program benefits, downloads, exclusive community content and Subscription Administration where you view your subscription coverage reports and maintain your contact information.

Exclusive Community Resources

As an Autodesk Subscription customer, you gain access to community resources and exclusive, subscriber-only privileges.

Product Extensions

Product extensions are modular enhancements to some Autodesk software. They provide new functionality, are fully compatible with the base product

Upgrading to the latest version of your Autodesk Software via Subscription offers maximum benefit in terms of increased productivity, efficiency and creativity, whilst at the same time maintaining optimum cost effectiveness.

ABOUT CADSPEC:

Cadspec is the CAD division of Stanford Marsh which since its foundation in 1989 has become one of the top three Autodesk Accredited Systems Centres in the UK. All our highly qualified Autodesk product specialists and lecturers at our Premier Training Centre have field experience in both the Built and Manufacturing sectors, making us uniquely qualified to help put design automation solutions into your company

and are easy to learn. Extensions are exclusively available to subscription customers.

Autodesk Impression

Autodesk® Impression 3 file conversion software has helpful tools and features that enable you to wrangle different kinds of graphics into one great presentation. Whether you're dealing with native DWF, DWG or other file types, Impression can convert them seamlessly and efficiently into the presentation format that works best for you.

Impression is exclusively available to subscription customers of all AutoCAD based products, Revit Architecture, Revit MEP, Revit Structures and Inventor.

Autodesk Inventor iLogic

Exclusively available for customers with their Autodesk® Inventor® software products on subscription, the Inventor® iLogic Extension 2010 enhances the parametric design capabilities of Inventor 2010 software by providing a powerful and elegant solution for rules based design. With its easy to use rules, authoring capabilities, and an intuitive user interface seamlessly integrated with the Inventor product, Inventor iLogic shatters barriers to automating tedious design tasks and adds higher levels of design intelligence to your digital prototypes.

Subscription Management Tools

Contract manager or named subscription holders will be entitled to view their contract details, including information on number of seats, product type, contract start and end dates and general company information.

Subscription Advantage Packs

Autodesk® Subscription Advantage Packs are now available for 2010 Autodesk software. They provide Subscription customers with early access to new features and specialised functionality, tools

and content that are fully compatible with the latest software release and can be downloaded from Subscription Center, or right from inside most 2010 software.

In Summary.

Being on Subscription ensures you get what you need to stay productive with a range of resources, including web support together with simplified administration, license management and more predictable budgeting. Only with subscription are you entitled to continue using previous software versions, even after you have installed the latest upgrade. Exclusive "Home Use" rights allows a second copy of the software to be installed away from your usual workplace.

Extra From Cadspec.

In addition to these Subscription benefits Cadspec provides extra benefits to its customers, such as a library of useful hints and tips to help you get the best out of your software. We regularly hold webinars providing product updates and "how to" presentations from the comfort of your own office, where you have the opportunity afterwards to ask our experts any questions you may have.

Training and Support

Cadspec offers a range of training and support services to cover your hardware and software systems. Our dedicated helpline is there to answer any of your support enquiries. As an Autodesk Authorised Training Centre all training courses are run by Autodesk Approved Instructors and follow Autodesk Official Training Courseware.

Further Information

For further information on Autodesk Subscriptions with Cadspec, please call either your Sales Account Manager or our Subscriptions Co-ordinator Mandy Haylor on 01905 458000 or email: mandy.haylor@cadspec.co.uk
