

3 Day Training Course

Objectives

This course is designed to teach delegates the basic principles of using AutoCAD mechanical including the property management system.

Audience

Delegates must have a familiarity and understanding of AutoCAD in a working environment.

Agenda

- User interface
- Property management
- Organising drawing geometry
- Tools for manipulating geometry
- Creating drawing sheets
- Bill of materials (BOM)
- Design calculations
- Mechanical options for the CAD manager
- Drawing templates
- Layer control
- Tools for creating key geometry
- Mechanical part generators
- Dimensioning and annotation drawings
- Parts lists and balloons
- Leveraging your existing data

All courses are normally run on the latest software release. The agenda can be varied to suit a clients preferences and requirements. On completion of the course you will be presented with an Autodesk Authorised Completion Certificate. All our courses follow Autodesk approved coursework.

Adam Lewis

CAD Engineer
Bronx Engineering

“

The speed of our training course was perfect. It was split in to bitesize chunks so you are able to absorb the information better.

”

Locations

Bristol
Derby
Worcester
Pencoed
Leeds
