- Setting up levels & grids
- Modelling walls
- Working with doors & windows
- Working with curtain walls
- Working with views
- Modelling roofs
- Modelling stairs, railings & ramps
- Modelling floors
- Adding components
- Modelling ceilings
- Creating construction documents
- Annotating construction documents
- Adding tags and schedules
- Creating details

“The trainer was excellent and very helpful. He went above and beyond to help us get to grips with the software. The training centre and facilities are excellent and I would fully recommend Cadspec to any company looking for training on any CAD package. They will be our first point of contact for any future training.”
