Revit Architecture Essentials

3 Day Training Course

CADSPEC
STANFORD MARSH GROUP

Objectives

This course is designed for new Autodesk Revit Architecture users or other Autodesk software users who want to learn essential elements of Autodesk Revit Architecture.

Audience

No previous CAD experience is necessary. However, architectural design, drafting or engineering experience is highly recommended.

Agenda

- Introduction to BIM & Autodesk Revit
- Basic sketching & modify tools
- Setting up levels & grids
- Modelling walls
- Working with doors & windows
- Working with curtain walls
- Working with views
- Modelling roofs

- Modelling stairs, railings & ramps
- Modelling floors
- Adding components
- Modelling ceilings
- Creating construction documents
- Annotating construction documents
- Adding tags and schedules
- Creating details

All courses are normally run on the latest software release. The agenda can be varied to suit a clients preferences and requirements. On completion of the course you will be presented with an Autodesk Authorised Completion Certificate. All our courses follow Autodesk approved coursework.

Jaspal Sandhu
CAD/BIM Manager
Keller UK

" *Cadspec have been our Autodesk product supplier for a while now & we have a really good relationship with them, so when I asked if they could create us a bespoke app for Revit to help our workflow, they got their best programmers on board & produced for us an amazing Revit add-on tool.* "

Locations
Bristol
Derby
Worcester
Pencoed
Leeds
