

FUSION CAD ESSENTIALS TRAINING

3 Day Autodesk Accredited Training Course
Onsite | Classroom | Remote

AUTODESK
Authorized Training Center

Objectives

This course will instruct students in the best usage and approaches for the parametric design philosophy through a hands-on, practice intense curriculum.

Audience

No previous CAD experience is necessary. However mechanical design, drafting or engineering experience is highly recommended.

Agenda

- Introduction to Fusion
- Creating the first sketch with quick shapes
- Creating sketched geometry
- Additional sketching tools
- Sketched secondary feature
- Construction features
- Pick & place features
- Equations & parameters
- Additional features & operations
- Design & display manipulation
- Single path sweep
- Loft features
- Feature duplication tools
- Assembly modelling
- Component design tools
- Multi-body design
- T-spline modelling
- Creating & detailing drawings
- 3D Printing output

"The trainer was great! Everything that I had questions about – even off topic of the course – were answered clearly & coherently. When we get new starters join, I will definitely recommend this course to them."

Craig - Kohler
