

FeatureCAM 3D Milling Essentials

1 Day Training Course

Audience

This course will instruct Engineers in the best usage and approaches for using FeatureCAM for 3D surface milling.

Prerequisites

FeatureCAM users who have previously completed milling training.

Agenda

- FeatureCAM Interface
- FeatureCAM getting started
- 3D roughing strategies – Z level, parallel, plunge, vortex
- 3D finishing strategies – parallel & corner finishing, pencil
- 4-axis rotary
- Simulating and Post Processing the Job

All courses are normally run on the latest software release 4 Axis Rotary Overview. The agenda can be varied to suit a clients preferences and requirements. On completion of the course you will be presented with an Autodesk Authorised Completion Certificate. All our courses follow Autodesk approved coursework.
