

FORMA DESIGN COLLABORATION TRAINING

1 Day Autodesk Accredited Training Course
Onsite | Classroom | Remote

Objectives

This course is designed for users who want to learn essential elements of collaborating with teams within the cloud environment.

Audience

No previous CAD experience is necessary. However, architectural design, drafting or engineering experience is highly recommended.

Agenda

- Introduction to Autodesk Forma Platform
- Activating services
- Roles and Responsibilities
- Working with internal project team members
- Collaborating with external team members
- Working collaboratively in Revit
- Managing central models
- Model federation and linking files
- Creating teams
- Creating a cloud based central model
- Security and permissions
- Reviews
- Swim lane
- Design change
- Consuming data
- Issues
- Reporting
- How this works with Autodesk Forma
- Project Home
- Managing Cards
- Insights Module

“Thanks to the training we were able to quickly set-up our office network-based, work-shared Revit projects to Design and Docs to continue collaborating via Home Working”

Geraint – Kendall Kingscott
