

Objectives

This course will instruct Engineers in the best usage and approaches for using Fusion 360 for CAM manufacturing.

Audience

Engineers with a working knowledge of Fusion 360, who also understand Engineering and Manufacturing principles.

Agenda

- About Fusion HSM
- CAM Concepts
- 2D Machining
- 3 + 2 Machining
- High Speed Machining
- Advanced 3D Machining
- Tilting
- Multi-Axis Contour
- Swarf Milling
- Waterjet, Laser & Plasma Cutting
- Additional Challenges
- 4 Axis Machining – Wrap Toolpath
- Turning
- Live Tooling

All courses are normally run on the latest software release. The agenda can be varied to suit a clients preferences and requirements. On completion of the course you will be presented with an Autodesk Authorised Completion Certificate. All our courses follow Autodesk approved coursework

Shane Fox

Controls Engineer
Animax Ltd

“

I've done various courses over the years and this was by far the most enjoyable to date. I found the timing of the course to be spot on and Alex's attentiveness to questions excellent. The material was delivered in such a way that it was easily digestible and each topic built on the one previous.
