

INVENTOR ADVANCED PART MODELLING TRAINING

2 Day Autodesk Accredited Training Course
Onsite | Classroom | Remote

Objectives

This course builds on the skills acquired in the Inventor Essentials Training & is designed to take delegates to a higher level of productivity.

Audience

Delegates must have taken the Inventor Essentials training first, and understand engineering design & drafting.

Agenda

- Advanced model appearance options
- Multi-body part modelling
- 2D & 3D sketching technique
- Advanced geometry creation tool (work features, area lofts, sweeps & coils)
- Introduction to part creation using iLogic
- Importing & exporting data
- Analysis tools
- Creating & editing basic surfaces
- Importing surfaces
- Surface repair tools
- Using iFeature & iParts to work efficiently with part model
- Emboss & decal features

“I really enjoyed the Inventor course at Cadspec, it was paced really well and adapted to suit my level. Everything was explained really well and I felt like all my questions were answered during the training.”
