

Inventor Tube & Pipe

1 Day Training Course

Objectives

This course teaches delegates the functionality and basic workflows to add and document tube and pipe designs within the 3D environment.

Audience

Students must have a thorough working knowledge of Autodesk Inventor and understand engineering design and drafting.

Agenda

- The tube and pipe environment
- Setting out routes and runs
- Placing fittings
- Rigid pipe, rigid tube and flexible hose designs
- Content libraries
- Publishing custom content
- Creating styles
- Documentation

All courses are normally run on the latest software release. The agenda can be varied to suit a clients preferences and requirements. On completion of the course you will be presented with an Autodesk Authorised Completion Certificate. All our courses follow Autodesk approved coursework.

Adam Lewis

CAD Engineer
Bronx Engineering

“

The speed of our training course was perfect. It was split in to bitesize chunks so you are able to absorb the information better.
