

I

Inventor Tube & Pipe

PRO

1 Day Autodesk Accredited Training Course

Objectives

This course teaches delegates the functionality and basic workflows to add and document tube and pipe designs within the 3D environment.

Audience

Students must have a thorough working knowledge of Autodesk Inventor and understand engineering design and drafting

Agenda

- The tube and pipe environment
- Setting out routes and runs
- Placing fittings
- Rigid pipe, rigid tube and flexible hose designs
- Content libraries
- Publishing custom content
- Creating styles
- Documentation

All courses are normally run on the latest software release. The agenda can be varied to suit a clients preferences and requirements. On completion of the course you will be presented with an Autodesk Authorised Completion Certificate. All our courses follow Autodesk approved coursework

Amal Jashid

Junior Engineer
Aktore

“

I really enjoyed the Inventor course at Cadspec. The course was paced really well and adapted to suit my level. Everything was explained really well and I felt like all my questions were answered during the training.
