

VAULT PROFESSIONAL PART 2 TRAINING

1 Day Autodesk Accredited Training Course
Onsite | Classroom | Remote

Objectives

This course teaches delegates the basic features of Autodesk Vault Professional. It provides delegates with the knowledge & expertise to quickly & accurately share design data across a manufacturing team.

Audience

This training course is intended for delegates with Autodesk Vault Basic & Professional Part 1 knowledge desiring to expand their skills to accommodate additional engineering workflows and data organisation.

Agenda

- Introduction
- Item properties
- Lifecycle management
- Change management
- Integration with other applications
- Working with items
- Item numbering
- Revisions
- Working with Bill of Materials (BOM)
- Administration & reporting

IMPORTANT PRE REQUISITES FOR REMOTE DELIVERY OPTION VAULT TRAINING

In order to conduct your Vault Training Remotely, please ensure that each delegate has a version of the Vault AMDS console & the Vault Client installed on their local machine. This is to simulate a server/client setup, and will be required for each delegate on the course. After the training this can be removed. If you are unsure about this set up or how to do this contact the Cadspec team info@cadspec.co.uk.
