

Vault Basic Essentials

1 Day Training Course

Objectives

This course covers all features in Autodesk Vault for managing files & projects. Delegates will learn how to organize & share files, manage file versions & integrate Autodesk Vault with various Autodesk products.

Audience

No previous CAD experience is necessary. However mechanical design, drafting or engineering experience is highly recommended.

Agenda

- Introduction to Vault features
- Basic Vault tasks
- Working with Vault & AutoCAD
- Working with Vault & Autodesk Inventor
- Working with Vault & AutoCAD Electrical
- Working with Vault & AutoCAD Mechanical
- Working with Vault & Microsoft Office
- Common Vault tasks
- Organizing & populating Vault
- Managing Vault

All courses are normally run on the latest software release. The agenda can be varied to suit a clients preferences and requirements. On completion of the course you will be presented with an Autodesk Authorised Completion Certificate. All our courses follow Autodesk approved coursework.

Adam Lewis

CAD Engineer
Bronx Engineering

“

The speed of our training course was perfect. It was split in to bitesize chunks so you are able to absorb the information better.

”

Locations

Bristol
Derby
Worcester
Pencoed
Leeds
