

Vault Professional

1 Day Training Course

Objectives

This course teaches delegates the basic features of Autodesk Vault Professional. It provides delegates with the knowledge & expertise to quickly & accurately share design data across a manufacturing team.

Audience

Students must have a basic working knowledge of Autodesk Vault & Autodesk Inventor.

Agenda

- Introduction
- Item properties
- Lifecycle management
- Change management
- Integration with other applications
- Working with items
- Item numbering
- Revisions
- Working with Bill of Materials (BOM)
- Administration & reporting

All courses are normally run on the latest software release. The agenda can be varied to suit a clients preferences and requirements. On completion of the course you will be presented with an Autodesk Authorised Completion Certificate. All our courses follow Autodesk approved coursework.

Craig Davies

Business Development Manager
Kohler

“

The Cadspec AutoCAD trainer was great! Everything that I had questions about – even off topic of the course – were answered clearly & coherently. When we get new starters join Kohler that require AutoCAD training, I will definitely recommend the Cadspec course to them.

”

Locations

Bristol
Derby
Worcester
Pencoed
Leeds
