- 5-axis toolpath edit
- Simulating and Post Processing the Job

All courses are normally run on the latest software release. The agenda can be varied to suit a clients preferences and requirements. On completion of the course you will be presented with an Autodesk Authorised Completion Certificate. All our courses follow Autodesk approved coursework

David Williams

Senior Engineer
Mucklow & Harris Ltd

“ The course trainer was excellent and very helpful and went above and beyond to help us get to grips with the software that was new to us. The training centre and facilities are excellent and I would fully recommend Cadspec to any company looking for training any CAD package. They will be our first point of contact for any future training ”
